PROGRAMS OF STUDY

Whether your goal is to complete a bachelor's degree, enter a professional program or prepare for employment with occupational training, North Central Missouri College offers a program designed to meet your individual needs. NCMC awards four types of degrees:

Associate in Arts degree (A.A.)

Associate in Arts in Teaching degree (A.A.T.)

Associate in General Studies degree (A.G.S.)

Associate in Applied Science degree (A.A.S.)

The College also awards one-year career and technical Certificates of Completion. Specific information about NCMC's degree and certificate programs is detailed in this section of the catalog. For a personal consultation with an academic or admissions advisor, contact the Student Services Department, (660) 359-3948, ext. 1418.

Developmental Studies

Developmental Studies (DS) courses are designed for traditional and non-traditional, under prepared students promoting the development of general and discipline-specific learning strategies and preparing students for integration into college-level curriculum. DS courses address academic preparedness in the general competencies necessary for college success. They focus on the academic skills of reading, writing, and math with college-readiness usually determined through placement testing or other assessment measures. While credit-bearing, these courses do not count toward graduation.
