

To determine the equivalency of programs and content, we ask that the instructor please complete this document. Listed below are examples of assignments or projects that are required of college students taking the course on campus. We ask that you please briefly explain or provide examples of your assignments or projects that students in your secondary (or adult) level course will have that address each topic and student learning outcome.

Students should keep all work electronically to use in their final Exit Portfolio documentation from NCMC.
